

# CAR TRIALS CHAMPIONSHIP

# Vehicle Specification

The BTRDA Car Trials Championship is keen to encourage cars that are currently not covered under the series production or ACTC kit cars umbrella, to compete. However, to avoid the use of specialist cars, we require any competitor wishing to use one of these vehicles to fill in a specification sheet for the vehicle to allow ratification by the BTRDA Car Trials committee *before use* in a championship event.

Applicant's Name					Date		
Make of car				Rear wheel drive		Front wheel drive	
Model							
Configuration	Front engine		Mid Engine		Rear engine		
Engine manufacturer / model			Capacity		Valves per cylinder		
No. of cylinders		Type of engine		e.g. V, inline, horizontal, air cooled			
Approx BHP		Induction system		Carbs, injection, forced induction?		Fuel
